

Petition to Rescind TARP

We the undersigned people stand in opposition to tyranny and all forms of government that unfairly tax their constituents without constitutional representation and spend and borrow the peoples money irresponsibly. You Michael McMahon and Charles Schumer were elected by the voters of Richmond County in the borough of Staten Island to represent our collective voice in matters of grave import. You Kirsten Gillibrand were appointed to the seat vacated by Hillary Clinton and have no less the same responsibility to represent the people of New York in a manner that reflects our collective will. You Nancy Pelosi as Speaker of the House and Harry Reid as Senate Majority Leader are responsible for to implement the will of the people you are duty bound to represent.

Greater than 70% of the people you purport to represent stand in opposition to the out of control spending that will undoubtedly cripple this nation and place the yoke of financial oppression upon all future generations.

We the people elected you to represent us yet your voting records demonstrate a diametric opposition to the voice and will of the people you claim to represent.

We the undersigned vehemently oppose all TARP spending programs, corporate bailouts and unjust taxation that you voted for during this time of severe economic recession.

We the people now demand that you move to rescind any and all spending and taxation bills voted into law during the Barack Hussein Obama term of office as President of these United States.

We the people now demand that you not support any and all future spending and taxation bills that may come to be during the Barack Hussein Obama term of office as President of these United States.

We the people further demand that if you continue to fail to represent the will of the people that voted you into office as our representative that you RESIGN from the office so duly elected to or suffer the removal from office prior to the expiration of your term by the people you are charged to represent.

ENOUGH IS ENOUGH!
